Air conditioner no longer operating - 2CarPros. Why isn't my air conditioner working?. If air isn t blowing from the vents it is not the issue of the refrigerant recycling gadget (A/C) and can be attributed to the blower motor or a vent regulate actuator. Car may not take A/C refrigerant, compressor won't get started. Get somebody to pull a vacuum at the device, then add your won t take any more freon until you pull a vacuum at the gadget.

Right now you are trying to power freon right into a gadget that if most likely filled with air, hence the explanation it is going to most effective take 1/2 a can. The low power switch probably sensed that there isnt enough freon in the gadget and its shutting the compresor off. Stroll-in cooler & freezer instruction handbook. 1.
